Overview

The P2102E is an expandable embedded computer with onboard 8th generation Intel® Core™ U series processor that brings outstanding computing performance boost up to 84% at a TDP of 15 watts, compared to 6th generation Intel® Core™ U series. To enable faster responsiveness and deal with multi tasks with ease, the computer is equipped with two DDR4 2400 SODIMM sockets for up to 64 GB memory. Powered by Intel® UHD graphics 620, the P2102E supports triple independent displays (CDS/VGA/DisplayPort) and can play 4K UHD video smoothly via DisplayPort.

For expansion requirements, the computer has 1x PCI/PCIe x4, 1x M.2 2230 E key and 2x full-size Mini-PCIe expansions which can be installed various add-on cards to increase desired functions. Besides, the P2102E supports Control Function Module (CFM) Technology to install optional CFM modules for increasing power over ethernet and power ignition sensing functions according to user's specific applications. Featuring rigorous industrial protection, fanless/jumper-less design, wide operating temperature (-40°C to +70°C), wide range DC power input (9~48 VDC), high tolerance for vibration/shock (5/50 Grms), the P2102E is appropriate for harsh environments and critical industrial applications.

Moreover, by taking advantage of Cincoze patented Convertible Display System (CDS) technology, the P2102E is compatible with CDS display modules and can be easily converted to an industrial panel PC of different sizes for selection.

Highlights

High Performance Per Watt
Powered by 8th generation Intel® Core™ U series processor (up to 4 cores, 4.10 GHz) at a TDP of only 15W, the P2102E can fulfill a variety of applications that require high-performance computing and low power budget simultaneously.

Flexible Expansions
Featuring 1x PCI/PCIe x4 slot, 1x M.2 2230 E key socket, and 2x full-size Mini-PCIe slots, the P2102E is capable of increasing additional I/O, or expansion cards to match your desired applications, such as data acquisition, motion control, and wireless communication.

Patented CDS Technology
Based on Cincoze patented Convertible Display System (CDS) technology, the P2102E can be easily converted to an industrial panel PC of different sizes by configuring with a variety of CDS display modules.
